EXECUTIVE SUMMARY

Senior Frontend Developer with over 6 years of experience architecting high-performance web applications and scalable enterprise design systems using React.js, Next.js, and TypeScript. Pioneering modern frontend architecture, SSR crawl indexation, micro-interactions, and AI-assisted engineering workflows. Track record includes +60% organic traffic gains, 95% client satisfaction, and 90% production bug reduction across international teams in Georgia, Germany (remote), and Pakistan.

TECHNICAL SKILLS & ARCHITECTURE

- Languages & Frameworks: React, Next.js (App & Pages Router), TypeScript, JavaScript (ES6+), HTML5, CSS3 / Tailwind CSS v4
- Architecture & Animation: Server-Side Rendering (SSR), Framer Motion, GSAP, Responsive Layouts, Design Systems, WCAG 2.2 AA
- Performance & Tools: Code-splitting, Web Vitals, Edge Caching, Webpack/Vite, Git/GitHub, REST & GraphQL APIs, Stripe & Mada
- AI & Modern Engineering: Cursor, Claude, GitHub Copilot, Gemini, Automated Refactoring, Next-gen AI interfaces

PROFESSIONAL EXPERIENCE

Exion Technologies — Sr. Software Engineer
Jan 2026 – Sep 2026 | Georgia

- Built highly interactive, animation-rich UI using Framer Motion and GSAP (page transitions, scroll triggers, micro-interactions).
- Participated in regular code reviews, contributing to a 90% reduction in production bugs and elevating team-wide code quality.

Gordian Solutions — Sr. Frontend Developer
Feb 2020 – Jul 2025 | Pakistan

- Spearheaded enterprise web applications using ReactJS and Next.js, achieving a 95% client satisfaction rate across deliveries.
- Led cross-functional frontend teams, partnering with backend architects and designers to increase development efficiency by 30%.
- Implemented responsive, mobile-first layouts, driving an 80% increase in mobile engagement and user retention.
- Optimized core Web Vitals and asset pipelines, reducing page load times by 45% and elevating organic SEO rankings by 25%.

Bring GmbH — Sr. Frontend Developer (Remote Contract)
Feb 2022 – Jul 2024 | Germany (Remote)

- Architected customer-facing portals and internal enterprise dashboards with React and Next.js server-side rendering.
- Improved site performance and loading speed by 25% through caching strategies, code-splitting, and API payload optimization.
- Ensured cross-browser compatibility and strict WCAG 2.2 AA accessibility alignment across international user bases.

TekX Solutions — Frontend Developer
Aug 2019 – Jan 2021 | Pakistan

- Developed and maintained dynamic, mobile-responsive web applications, increasing user engagement by 35% for client projects.
- Collaborated with design leads on UI/UX iterations, resulting in a 25% boost in client retention and 20% faster load performance.

SELECTED FEATURED PROJECTS

- **MyChauffeur (Next.js SSR / Bilingual):** Migrated legacy SPA to Next.js SSR. +60% organic traffic, 100% crawl indexation, bilingual /en & /de routing
- **Comfy Car Rental (Fintech & Multi-Portal):** Dual payment gateway (Stripe + Saudi Mada). 3 authenticated enterprise portals (Admin, Fleet, Corpor
- **Business Class For Less (Designed & Developed by Kamran Ali):** Luxury travel booking platform with interactive multi-city flight search form, pa
- **TSA Bildung & Qowboy Security (Enterprise & Services):** Multi-category educational and security platforms with localized structured schemas an

EDUCATION

Bachelor of Computer Science (BSCS) — Lahore Garrison University *2015 – 2019 | Pakistan*
